

- 1 Open the Firefox menu after opening the browser.

**2** Select "Preferences."

**3** Navigate to the Content tab.

- 4 On the first option, uncheck the "Block pop-up windows" box. This will disable the popup blocker function.

**5** If you want to choose which websites to allow and still keep the blocker functionality, to the right, choose "exceptions" instead. Write down a list of websites you don't want Firefox to automatically block.
